Profile summary

Enthusiastic and dedicated Angular developer with 5+ years of hands-on experience in crafting dynamic and responsive web applications. Proficient in utilizing the latest Angular frameworks and technologies to deliver high-quality solutions. Adept at collaborating within a team to achieve project goals. Possesses average communication skills and a commitment to continuous learning.

Professional experience

Macincode Technologies | Angular developer
April 2017 - Present

- **Project Name: CLOVE CRM,**
- Description: I have a proven track record in UI development, particularly in contributing to the enhancement and optimization of Clove CRM. Leveraging React, I've played a pivotal role in crafting intuitive user interfaces that empower small business owners to efficiently manage customer relationships. My expertise includes customizing functionalities that streamline sales processes, ensuring timely reminders for next steps, thus significantly expediting deal closures.
- Technologies Used: Angular, Laravel, MySQL.

Roles & Responsibility

- Worked closely with a team of engineers to design and implement new features.
- Developed and maintained large-scale Angular applications.
- Various Development environments.
- Predominantly focusing on Reports & Analytics of the application.
- Successfully delivered high-quality Angular applications with industry standard procedures
